July 8, 1958

S:cretary, M:tal Labour Union, Kulappully P.O., via Shoranur.

Dear Comrade,

Thank you for your letter of 29th June on the threatened closure of The Metal Industries Ltd., Shoranur. We have referred the question to the Economic Adviser, Ministry of Labour & Employment who is dealing with the units threatened with closure.

However, more detailed information will be needed in this respect, e.g., total production, profits, sales, concrete instances of mismanagement, representation to the Government - State and Central and its effects, alternate suggestions, if any, etc. Please collect these details and forward the same to us at your earliest.

With greetings,

Yours fraternally,

(K.G.Sriwastava) Secretary

METAL LABOUR UNION,

(AFFILIATED TO THE A. I. T. U. C.) REGD. NO. 1902 & RECOGNISED.

Ref. No.....

Date. 29--- 6--- 1958.

From K.S. NAIR, Secretary.

To The Secretary, A.I.T.T.C, 4 Ashok Road, NEW. DELHI.

Dear Comrade,

I think it is my duty to bring to the not ice of the A.I.T.U.C., centre - as per instructions given in the Trade Union Record- dated 20the June 1958- that uneconomic units and iactories that are likely to be closed down.

Here, in Shoranur, Kerala, there are certain types of factories that are very rare in their nature and product. Garden tools and implements are the main products, manufactured in these factories. It seems very difficult to thrive due to the acute shortage of steel for which they mainly depend on Government Quota.

We have a metal factory in Shoranur namely The Metal Industries Ltd., Shoranur, employing more than 300 workers. Now 44 workers have been retrenched on the above cause. We are sure that the main difficulty arose due to the non- supply of steel,-worn put Rails and Tyreswhich was being supplied previously by railway as railway scrap.

Moreover this particular unit is a private limited concern and the lack of sufficient working capital, and of course mis-management also to a certain extent, has come to the stage that it is on the brink of closure.

-- 2 ---

Enough supply of steel, such as before from railway scap can only save the industry. This industry can play a very good part in the development of the national industry.

Dr. S.B.L.Nigam, Assistant Economic Adviser, Ministry of Labour & Employment, New Delhi.

> Sub: Collection of advance information about weak or uneconomic units, likely to close down.

Dear Sir,

With reference to your letter No.E&P.8(5)/58 of 9th April 1958, certain information received from our affiliate. the Metal Labour Union, Shoranur is forwarded herewith, for your attention.

The factory concerned is dependant upon supply of steel scrap from railways and if supply position of this material can be improved, it would be of material benefit to the normal running of the unit concerned.

Yours faithfully,

(K.G.Sriwastava) Secretary

FACTORIES THREATENED WITH CLOSURE IN SHORANUR, Kerala 1

In Shoranur, Kerala, there are certain factories manufacturing garden tools and implements and normal working of these units are depend upon availability of steel - mainly in the form of worn-out rails and railway scrap.

These factories are threatened with closure due to non-availability of steel quota from the Government of India.

The Metal Labour Union (AITUC), Shoranur, reports that in the Metal Industries Ltd., Shoranur, Keralal employing 300 workers, already 44 workers have been retrenched on the plea of non-availability of steel.

The Union is also of the view that the company is a badly managed and also does not possess adequate working capital.

All this has led to a situation that the factory might close down in the near future.

Enough supply of steel, as before from railway scrap, alone can save the industry.

The bulk of goods produced by the above factory is consumed by the tea and rubber estates in Kerala.
