**PROTEST AGAINST THE CREATION OF
SRI GANGA FOUNDRY & ENGINEERING
WORKS IN RESIDENTIAL AREA.**

A mass meeting of the people of the villages Chakpara Bhattanagar, Ghughupara, Mirpara etc. etc. adjoining Lillooh within the jurisdiction of Bally Police Station was held at 8 A.M. on 30.11.58 in the presents of Palli Samaj with - Sri Hari Bhawan Chakraborty, an old gentleman commanding respect of one and all in the locality. Leading gentlemen and the villagers of the locality were present. The following resolution was unanimously passed in the meeting.

- (1) That this meeting of the people of above mentioned villages strongly protests against erection of a large Foundry & Engineering Works (viz: Sri Ganga Foundry & Engineering Works) in the residential area of the village Chakpara and requests the Chairman of the Bally Municipality to interfere immediately in the matter so that a plot of land measuring about 20 bi has in the Chakpara area has just been walled up may be prevented without any loss of time and that it is highly apprehended that the proposed construction in the Chakpara area will definitely and seriously tell upon the health of the people, not only Chakpara area but also of the adjoining areas such as Bhattanagar & Mirpara which are now very thickly populated. Unless immediate preventive measures are taken, erection of similar other factories in the same area which is now being attempted by some other persons will be definitely encouraged.
- (2) That a Committee be formed with the following leading gentlemen to meet and move the authorities concerned with a view to implementing what has been urged in this meeting and also devising further ways and means for this end.

Modi Spinning & Weaving Mills Company Ltd.

We take our readers to a period of two years back when Modi Spinnings were quoting at about Rs. 9/50 and we tipped these shares as the best purchase then. Since these shares have shown full 100% rise apart from a dividend of 13% paid for the year 30-4-1960 and 17% for the year 30-4-1961. We now recommend these shares again both for capital appreciation and for dividend yield.

These shares are currently quoted at Rs 17/20. An interim dividend of 8% is coming this month and final dividend of 9% will be due in September this year, making a total of 17%. It may be 18%.

From the dividend point of view there are a few companies now in the country which give such a high yield.

The capital of the company is 115 lakhs, reserves stand at 53 lakhs, the depreciation fund is at 153 lakhs, which figure brings down the total gross block of 383 lakhs to a figure of 233 lakhs. The profits for the last 9 months exceed those of 12 months of last year.

The Mills produce Yarn and Cloth. The company has a Rayon unit in addition. Its rayon, nylon and terylene products compare well with those of any other unit in the country.

These shares are quoted on the Delhi Stock Exchange and are on its forward list. They are transacted in lots of 100 shares. In recent months the shares quoted on The Delhi Stock Exchange have attracted wide attention of the investors spread over the whole of the country. Delhi Cloth Mills and Ganesh Flour Mills have spurred recently from the levels of Rs 35/- and Rs 16/- to the levels of Rs 62/- and Rs 25/- respectively. We expect Modi Spinnings and Modi Sugars to attract even wider class of investors in coming months.

We strongly recommend these shares.

Modi Sugars

We have been writing about Modi Sugars in these columns. Rs 10/- paid they are now quoting Rs 13/75. The company paid an interim dividend of 8% two months back and a final of 9% is coming before the end of the next month. The company produces Sugar, Vanaspati, Alcohols, Paints. But the most important addition recently has been Oxygen and Acetylene Plants. All these units have come out from the internal resources of the company.

The capital of the company is 70 lakhs.

The different units value more than 4 crores of rupees and Oxygen and Acetylene plants alone will account for the present capital of the company.

Modi Sugars has earned profits even on its sugar unit. But in the present set up of the diversified activities of the company, sugar is just one part of it. Its Oxygen and Acetylene plants alone are enough to feed the dividend.

Electrical Instrument Manufacturing Co. Ltd.

is coming into the market for issue of fresh capital to the tune of 20 lacs. The total capital is 30 lacs, out of which 10 lacs has already been taken up by the Directors and their friends. The balance 20 lacs has been under-written :-

15 lacs by the Industrial Credit & Investment Corpn., L.I.C. and Banks.

5 lacs by prominent brokers.

Underwriting is a guarantee that the total capital will be taken up by the underwriters if not taken up by the public.

The company is already working and is manufacturing Switch Gears and has obtained the necessary Industrial Licence for the manufacture of House Service Meters and has entered into collaboration arrangement with Messrs VALMETOY of Finland. The company is setting up a new unit at Ahm dabad and is expected to go into production by the middle of 1962. The present production of the company is being taken up entirely by the Maharashtra Electricity Board and this ensures the sale of the total production.

On a capital of 5 lacs the company made a profit of about 75,000 last year.

The shares of the Company will be quoted at the Bombay and at the Ahmedabad Stock Exchanges. Since the company is already working and is in full swing and the sale of the entire production already assured, we feel that the investment in the Co. will have bright prospects.

We are official brokers to the issue and shall be very glad to send you application forms on hearing from you. The issue will be coming into the market very shortly.

Will Indian Irons Surprize With a Bonus Issue

1962 might prove to be a year of bonus issues. Hindustan Levers gave the signal and Titagur Papers, National Insulated Cables, Indian Standard Wagons have given a welcome response by making applications to the Controller of Capital Issues for the issue of bonus shares. The next question is what other companies are likely to throw a bonus.

This will necessitate examination of the financial strength and reserve position of the various companies.

Indian Iron & Steel Co. Ltd. has an ordinary capital of 12.44 crores and as against this the reserves stand at a tremendous figure of 24.43 crores, apart from a depreciation fund of 17 crores. This financial position of the company justifies a bonus issue. If the bonus is one for every two shares held, even then the company would be left with a

The Markets in Retrospect

The markets during the period under review have been most active and there has been appreciation by 10 to 15 per cent in most of the active counters, particularly the so-called Blue Chips. Indian Aluminium, Guest Keen Williams, Union Carbide, all moved up by 4 points, 5 points and 6 points each respectively. The most important rise was in Hindustan Lever which shot up suddenly from a level of Rs. 50/- to a level of Rs. 70/- on the announcement of a bonus issue of 12 shares for every 25 shares. In its wake came, National Insulated Cables which spurted from a level of Rs. 37/- to a level of Rs. 46/- on the news of an application by the Company for issue of bonus share—one for two shares held.

This bonus factor has brought out to the front, a good number of shares with huge reserves and it is likely that the Companies commanding huge reserves are now likely to come out with bonus issues. Indian Coppers moved up from Rs. 4/73 to Rs. 5/20 on similar expectations. Tittaghur Papers and Braithwaites are other instances, which have shot up from 36 and 42 to 43 and 50.

The period under review has been responsible for steep rise in Orissa Cements, Jaipur Udyoga, Kesoram Industries. These shares were placed on the forward list of the Calcutta Stock Exchange and there have been very heavy speculation and activity in these scrips and Orissa Cements gained 4 points from a level of Rs. 15/- to the level of Rs. 19/- and Jaipur Udyog from the level of Rs. 11.50 to Rs. 14.25. The rise in Birla Jutes may also be attributed to the same considerations. This scrip also has been marked up by 5 points from a level of Rs. 30/- to the level of Rs. 35/-.

Bharat Commerce gained 4 points from the level of Rs. 27/- to the level of Rs. 31/-. Jayshree Textiles has gained full 2.5 points from the level of Rs. 15.50 to the level of Rs. 17.50 nP.

New Central Jutes and Rohtas Industries, notwithstanding the rise from a level of Rs. 16/- to the level of Rs. 19/- and Rs. 18/- respectively have still considerable further chances. New Central Jute has, in fact, reacted from Rs. 19.50 to Rs. 18.50 and at this level, they are very attractive.

Bombay has not responded with equal zeal. On the Bombay Stock Exchange by slow stages, Synthetics broke to Rs. 210/- from a high level of Rs. 250/- and they are now quoting round at Rs. 220/- and at this level they appear to be attractive. Premier Tyres are round about Rs. 152/-, 153/-, and it is not certain whether they would meet realisation at this level.

Tata Chemicals have broken from a level of Rs. 20.50 to Rs. 18.00. Scindias from a high of Rs. 16.50 has come to a low of Rs. 12.50 nP. The worst sufferer is the Premier Automobiles, which for reasons, unknown have come to a low of Rs. 136/-.

By a glance at the highest and lowest for the year 1961 and the latest quotations so far recorded in 1962, it will be evident that in most cases, the highest of 1961 have been broken. This is a very important signal for the Investors.

The year 1962 started with apprehensions and fears because of the Ashtagrahas and general elections. These two factors utterly failed to bring markets to the lower level of the year 1961 and in fact, immediately after the Ashtagrahas and before the general elections, markets have been marked up considerably.

This is a presage for 1962, when one can look forward to greater activity on the stock Exchanges.

Mr. S.A. Dange,
General Secretary,
All-India Trade Union Congress,
4, Ashoka Road,
NEW DELHI,
India.

Dear Brother Dange,

For the preparation of the 15th anniversary of the W.F.T.U., the W.F.T.U. Secretariat intends to organise various activities, among which will be the production of a set of nine micro-groove (long-playing) records, in the official languages of the W.F.T.U., with speeches by the leaders of the international working class and trade union movements.

We should like to ask you if you would kindly contribute to this, the first such venture of the W.F.T.U., by preparing a speech and having it recorded on the magnetophone. If you agreed, we should propose the following subject as the theme of your speech: "How the working class determines its relations with the bourgeoisie during the economic development of countries which have gained their national independence".

You will naturally record your speech in your mother tongue: the text will then be translated into the official languages of the W.F.T.U. and read by a speaker. It should not last more than 14 minutes.

We should appreciate having your recorded speech as soon as possible, and by April 15, at the latest.

If possible, I should like you to give me soon your opinion, in principle, on the question raised in this letter.

With fraternal greetings,

V. Berezin
V. BEREZIN,

Secretary of the W.F.T.U.

NOTES ON ARTICLES TO BE AMENDED

Article 2 India having achieved political freedom, the retention of that objective in the aims and objects has become superfluous.

Other changes are only for better expressions.

Article 4: In the present stage of our economic and political development, the demand for a general reduction in working hours below eight is not feasible. But, there are industries, where even an 8-hour day is not being observed. So, in these industries, the task is to get the 8-hour working day implemented. In certain particular industries, however, where the work is hazard-

ous and entails danger to health, such as mines and chemicals, the reduction of working hours below eight is needed.

Article 5 (a) (i): This clause was drafted in conditions of the controversies of 1934-36, to meet certain ideological questions. The need for such a clause no longer exists, especially when the functions and definitions of a trade union have been made amply clear by the WFTU. The deletion of this clause is also necessary in order not to make it a ground of argument and controversy, when we have to evolve unity among trade unions of differing ideologies or no ideology. Moreover,

some statements in this clause are by themselves incorrect, as for example, the fact that collective bargaining is necessary not only in the transition period but even afterwards.

Article 5 (a) (iii) and Others: In the re-organisation now, the Provinces have been substituted by States.

Article 5 (a) (v): Besides conducting struggles, the trade unions now have to undertake new tasks such as work before courts, tribunals and similar other things. This requires more funds. With the rise in prices, office and other work has

Amendments

also become dearer. Hence, the minimum membership should be increased. Most of the unions have already done so.

Article 6 (a) : This is only consolidation of the changes made from time to time in this respect.

Article 6 (d) : As usually the annual year of the trade union is from April 1 to March 31, the practice followed by the AITUC needs clarification.

Article 9 (a) (vi) and 16 (a) : In view of the new pattern in which industries and along with them the trade unions are developing in India, this classification requires changes. The amendment also takes into account the fact that the Government of India, ILO and the WFTU have adopted new groupings

of industries and trades. In India also, actual practice is going the same way and is more convenient. The details of sub-sections are only for explanatory purposes.

The minimum number of membership of the Group has been raised from 2,000 to 5,000 and each delegate on membership from 200 to 500, as the trade union membership has in the past years increased.

Article 9 (c) : Table of representation has been amended to suit representation of the increased membership and to keep the number of members of the General Council from becoming unwieldy.

Article 12 : This is taking into consideration the decision of the

last session of the AITUC when the number of members of the Working Committee was increased.

Article 13 : It has been found in practice that in a vast country like ours annual conferences of the AITUC, besides the local, State and industrial conferences every year, are not practicable for many reasons. So the interval between each Conference has been increased from one to two years. In the recent Leipzig Congress, the WFTU changed its Constitution to hold the World Congress every four years, instead of two.

Article 29 (c) : With the reorganisation of States, now there is no need for Regional Councils, except the present Bombay State where there will remain Maharashtra and Gujarat State Committees
